

omNovia vs. Adobe Connect Pro

Despite being one of the first players in the market, Adobe Connect Pro has disappointed many of its users due to its non-responsive customer support, less flexible payment plans and complicated interface. omNovia Web Conference offers an excellent alternative to the Adobe Connect Pro with fast service and an easy-to-use platform at a competitive price. Unlike Adobe, omNovia Technologies is solely focused on web conferencing. Our goal is enhancing your web conferencing experience with our superior customer support and constant innovations. Recast, an interactive event recording technology, iBridge, which simultaneously integrates VoIP and phone users, and Twitter Integration are just a few examples of our unique features.

Do you need just a web conferencing platform or a total client care web conferencing solution?

At omNovia, we know it takes **more** than a great product to provide a great service. We do not only provide you the technology that works but also the personal support every step of the way. The omNovia Technical Support team offers an unprecedented, around the clock support to you and all of your customers. We resolve issues within minutes.

Do you need a scalable solution that can support up to 5,000 participants in a single room?

If your current service is limited and not able to handle your desired capacity, we have the solution you are looking for! Our Honeycomb Technology allows you to host a web conference with as many as 5,000 participants. These large sessions arrange multiple servers into a cluster, allowing your sessions to grow exponentially.

Do you need a cost effective solution?

With omNovia's cost effective plans, you will be paying for the great service, not for the name.

Do you want to partner with a company that focuses entirely on web conferencing?

At omNovia, we live and breathe web conferencing. omNovia is a software company that focuses entirely on web conferencing to make it possible for your organization, whether it is a home based business or a multinational corporation, to stretch resources and eliminate logistical barriers
