

Although Microsoft Office products are widely used as standard PC applications, according to many reviewers, Microsoft has failed to bridge the gap between PC applications and the web. At omNova, we know that in today's dynamic business environment, your business needs the flexibility to hold online meetings anywhere, anytime with no software to install. omNova's 100% web-based high quality meeting platform and its SaaS business model offer you unique advantages, allowing you to collaborate within your organization as well as with your partners, suppliers and customers. We also offer full customizations and integrations, including but not limited to MS OCS, Active Directory, CRMs, website integrations, to meet the specific requirements of your business.

Do you need an online meeting platform compatible with multiple platforms and browsers?

omNova runs in any standard web browser. All major browsers (Microsoft Internet Explorer, Firefox, Opera, Google Chrome) on Windows, Mac OS, and Linux are supported. Accessing a room is as simple as accessing any web page with no software to install and no annoying wait.

Do you need a fully customizable solution integrated to your own website / system?

omNova Web Conference offers the highest level of customizability and allows integration with your own website, database, CRM.. within hours! Beyond simple logo and color configuration, you can add/remove features to your rooms or even create your own custom application.

Do you need a cost effective solution?

omNova offers the right web conferencing solution at the right price for your organization, whether it is a home office or a multinational enterprise. With omNova's cost effective plans, you will be paying for the great service, not for the name.

Do you want to partner with a company that focuses entirely on high quality web conferencing?

At omNova, we live and breathe web conferencing. omNova is a software company that focuses entirely on high quality web conferencing. Ease of use, focus on quality, innovative technology and above all dedication to create a long-lasting customer partnership are integral part of our DNA.
